

# ESI Business Phones

## Communication Begins with the Perfect Phone.

In today's hyper-connected world it is more critical than ever to stay connected with clients and staff at any time, and from anywhere. When in the office, the business phone remains the most valuable and crucial aspect of any business' communications. Having the right phone for each user ensures that client calls are handled quickly and professionally, which is why the full portfolio of ESI Business Phones provide several different models so that users are equipped with the best phone to help them stay successful.

Since 1987, ESI has worked to perfect the desktop phone as the hub of business communications. Loaded with advanced - yet intuitive and easy to use - capabilities, the best features are always at users' fingertips. Each phone has been purpose-built to work seamlessly with ESI solutions, delivering an unmatched communications experience to users. Some providers lead their customers to believe that any generic phone and system combination will suffice, but only ESI designs our phones and solutions to work unison to deliver the highest level of unified communications.

WE MAKE IT EASY TO COMMUNICATE

### ESI 30 DIGITAL BUSINESS PHONE

The ESI 30 Digital Business Phone is perfect for users with lower call traffic who need access to system features but require less customization. This phone features a two-line, 32 character back-lit display and twelve (12) programmable feature keys.

### ESI DITTO™ MOBILE APPLICATION (FOR SMARTPHONES & TABLETS)

Organizations wanting to offer a truly mobile work environment do so only when employees have the same benefits in the office and when working remotely. By embracing mobile VoIP options, companies can offer their workers direct access, via their smartphones or other mobile devices, to the same office lines and features used in-house. ESI Ditto takes the features that users love about the ESI Cloud PBX solution and places them in a unified, mobile application.

#### Unique ESI Ditto features include:\*

- Hold, transfer, and park calls anywhere.
- On-the-fly Call Recording.
- Call hand-off.
- Contacts aggregation: view contacts from synced accounts on your device.
- Single-number reach: calls to your work number can be automatically routed to your chosen destination.
- Voice Mail Notifications: get alerted as soon as messages are left for you.
- Convenient Call re-routing: set-up Call Forwarding and Do Not Disturb from anywhere.

\*ESI Ditto is intended for use with ESI Cloud PBX Mobile or Premier seats.

\*Required Operating Systems: Android™ 4.0 or later; iOS™ 7.0 or later

## ESI 60 IP BUSINESS PHONE

## ESI VIP 7 SOFT PHONE (FOR LAPTOPS/PCs)

Regardless of your selected configuration, VIP 7 is easy to implement. It connects to your existing local area network (LAN) and is non-invasive. There's no need to upgrade the LAN or install Microsoft® Exchange® — thus avoiding a costly and impractical solution for the small to mid-size business.

### Available on:

IP Server 900 & Communications Servers

## ESI EXPANSION CONSOLE

When your business grows, your ESI phone system expands with it — and, to help you handle all those extensions more easily, ESI also offers the 60-Key Expansion Console. The Expansion Console adds sixty (60) additional programmable keys to your ESI business phone.

### Compatible with:

ESI 40, ESI 48 & ESI 60 Business Phones

## ABOUT ESI

Estech Systems, Inc. (ESI) delivers high-performance phone systems and cloud services designed for businesses and organizations. A premier provider of cloud- and premises-based unified communications solutions, ESI offers uniquely innovative and integrated systems that enable its channel partners to deliver differentiated, intuitive, and affordable VoIP communications. Founded in 1987, ESI has sold more than 300,000 business communications systems through hundreds of certified Resellers. ESI is a privately held corporation with headquarters in Plano, Texas.
